

PRESS RELEASE

DIRECTOR RAISES £50,000

Trinity Wealth Management director, Jon Cobb, has raised £50,000 to build a school in a Haitian slum village in the Dominican Republic. Trinity Wealth Management's charity, Trinity Ministries, have supported Jon in both time and finances as he returns to the Dominican Republic with Mission Direct, to head up a team of 28 volunteers.

Not only will they complete the school, they will also be involved in other related projects including house building, 'Rubbish Dump Ministry' visiting the sick in hospital as well as being involved in the all-critical local feeding programme. The increases in food prices are having a drastic effect on the poor. Haiti, which neighbours the Dominican Republic, has seen rioting over food prices and this can only lead to an increase in the number of Haitian refugees coming into the Dominican Republic.

Incorporated in 2001 Trinity Wealth Management subsequently formed, and obtained charitable status for, their charity Trinity Ministries. In addition to supporting the Dominican Republic, Trinity Ministries have supported other Kingdom based programmes such as evangelism through J. John through the Philo Trust, inner city work in Leeds and Luton, the Luton Christian Education Trust and Alan Heavy, an evangelist who travels on mission in Eastern Europe.

In addition Graham and Jon give free seminars about financial biblical principles. The talks and seminars address God's goals, people's dreams, talents and money.
